PROJECTS

School Management System

- I have created comprehensive School Management web application using the MYSQL Database, Hibernate Framework, Servlet, JSP and HTML, CSS. This application serves as a centralized platform for efficient record management of students and staff within an educational institution.

Classified Ads Platform

- I designed and developed a dynamic classified ads platform, serving as a comprehensive web application for users to post and browse advertisements in various categories. This project was built using modern web technologies, including HTML, CSS, JavaScript, and a backend such as Java.

Coffee Cafe Blog

- Developed website using HTML, CSS. This project was building an actual coffee shop website with features that include, customer reviews, menu items, products for purchase, about the cafe and a contact form.

INTERNSHIP

- Completed the Virtual Internship Program at BHARAT INTERN in Full Stack Web Development. (July 10, 2023 to August 10, 2023)

CERTIFICATIONS

- Completed four-day course of Core Java Foundation at Sunbeam.
- Web development Bootcamp (Udemy) – 2021.
- Full Stack Engineer -(Skill Sigma) – 2020
- HCAI-Huawei Artificial Intelligence certification (Huawei Technology) – 2020

DECLARATION

I hereby declare that all the details provided above are true to the best of my knowledge.
